

Bibliography

ADS40 (Leica Geosystems)

ADS40 calibration certificate, sample document

Tempelmann, U., Hinsken, L. & Recke, U. (2003): ADS40 calibration and verification process, in Grün/Kahmen (eds.): Proceedings on Optical 3-D Measurement Techniques VI, Zürich, Switzerland, pp. 48-54, also published in Proceedings International Workshop on Theory, Technology and Realities of Inertial/GPS Sensor Orientation 22.-23. September 2003, Castelldefels, Spain, digitally on CD-Rom.

Hinsken, L., Miller, S., Tempelmann, U., Uebbing, R. & Walker, S. (2002): Triangulation of LH Systems' ADS40 imagery using ORIMA GPS/IMU, IAPRS, Vol. XXXIV, Part 3A, Graz, Austria, 7 pages, digitally on CD-Rom.

Schuster, R. & Braunecker, B. (2000): Calibration of the LH Systems ADS40 airborne digital sensor, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 288-294, digitally on CD-Rom.

Tempelmann, U., Börner, A., Chaplin, B., Hinsken, L., Mykhalevych, B., Miller, S., Recke, U., Reulke, R. & Übbing, R. (2000): Photogrammetric software for the LH Systems ADS40 airborne digital sensor, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 552-559, digitally on CD-Rom.

Sandau, R., Braunecker, B., Driescher, H., Eckart, A., Hilbert, S., Hutton, J., Kirchhofer, W., Lithopoulos, E., Reulke, R. & Wicki, S. (2000): Design principles of the LH Systems ADS40 airborne digital sensor, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 258-265, digitally on CD-Rom.

Reulke, R., Franke, K.-H., Fricker, P., Pomierski, T., Sandau, R., Schönermark, M., Tornow, C., & Wiest, L. (2000): Target related multispectral and true colour optimisation of the colour channels of the LH Systems ADS40, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 244-250, digitally on CD-Rom.

Jahn, H. & Reulke, R. (2000): Staggered line arrays in pushbroom cameras: Theory and application, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 164-172, digitally on CD-Rom.

Pacey, R.E., Walker, A.S. & Scheidt, M. (1999): Calibration of analogue and digital airborne sensors at LH Systems. Proceedings of the 1999 ASPRS Annual Conference, Portland, Oregon, pp. 950-956.

DMC (ZI-Imaging)

DMC Calibration certificate (PAN and MS Blue), sample document

Dörstel, C., Jacobsen, K. & Stallmann, D. (2003): DMC – Photogrammetric accuracy – calibration aspects and generation of synthetic DMC images, in Grün/Kahmen (eds.): Proceedings on Optical 3-D Measurement Techniques VI, Zürich, Switzerland, pp. 74-82.

INTERN: ifp-Abschlussbericht DMC-Kamerakalibrierung, April 2001, 15 pages (excluding Appendices)

Ferrano, G. & Feix, C. (2003): The Z/I-Imaging digital mapping camera system – status, configuration and calibration, in Proceedings ASPRS 2003 annual conference, May 2003, Anchorage, Alaska, 5 pages, digitally on CD-Rom.

Zeitler, W. & Dörstel, C. (2002): Geometric calibration of the DMC: Method and results, IAPRS, Vol. XXXIV, Part 1, Denver, Colorado, 6 pages, digitally on CD-Rom.

Dörstel, C., Heier, H. & Hinz, A. (2001): System design and integration of the digital modular camera (DMC), Proceedings ASPRS 2001, St. Louis, Missouri, April 2001, 6 pages, digitally on CD-Rom.

Diener, S., Kiefner, M. & Dörstel, C. (2000): Radiometric normalization and colour composite generation of the DMC, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 82-88, digitally on CD-Rom.

Hinz, A., Dörstel, C. & Heier, H. & (2000): Digital Modular Camera: System concept and data processing workflow, IAPRS, Vol. XXXIII, Part B1, Amsterdam, pp. 164-171, digitally on CD-Rom.

UltraCam_D (Vexcel Austria)

UltracamD calibration certificate (single head geometric and radiometric calibration), sample document

Leberl, F. & Gruber, M. (2003): Flying the new large format digital aerial camera Ultracam, in Fritsch (ed.) Photogrammetric Week 2003, Wichmann Verlag, pp. 67-76.

Leberl, F., Gruber, M., Ponticelli, Bernoegger, S. & M., Perko, R. (2003): The Ultracam large format aerial digital camera system, in Proceedings ASPRS 2003 annual conference, May 2003, Anchorage, Alaska, 7 pages, digitally on CD-Rom.

Leberl, W., Perko, R., Gruber, M. & Ponticelli, M. (2002): Novel concepts for aerial digital cameras, IAPRS, Vol. XXXIV, Part 1, Denver, Colorado, 6 pages, digitally on CD-Rom.

DIMAC (Dimac Systems)

Information digitally available from www.dimacsystems.com

DSS Emerge (Emerge/Applanix/Leica)

Mostafa, M. (2003): Design and performance of the DSS, in Fritsch (ed.) Photogrammetric Week 2003, Wichmann Verlag, pp. 77-87, also published in Proceedings International Workshop on Theory, Technology and Realities of Inertial/GPS Sensor Orientation 22.-23. September 2003, Castelldefels, Spain, digitally on CD-Rom.

Mostafa, M. (200?): Camera/IMU boresight calibration: New advances and performance analysis, 12 pages digitally accessed from www.applanix.com

TLS (Starlabo)

Poli, D. (2002): General model for airborne and spaceborne linear array sensors, IAPRS, Vol. XXXIV, Part 1, Denver, Colorado, 7 pages, digitally on CD-Rom.

Grün, A. & Zhang, L (2002): Sensor modelling for aerial mobile mapping with Three-Line-Scanner (TLS) imagery, IAPRS, Vol. XXXIV, Part 2, Xian, China, pp. 139-146, digitally on CD-Rom.

Murai, S. & Matsumoto, Y (2000): The development of airborne three line scanner with high accuracy INS and GPS for analysing car velocity distribution, IAPRS, Vol. XXXIII, Part B2, Amsterdam, Netherlands, pp. 416-421, digitally on CD-Rom.

Chen, T., Shibasaki, R. & Murai, S. (2003): Development and calibration of the airborne Three-Line Scanner (TLS) imaging system, *Journal of Photogrammetric Engineering and Remote Sensing*, 69(1), pp. 71-78.

Other sensor systems

Becirsphahic, F. (2003): IGN's aerial digital frame camera: From the laboratory to the production line, in Grün/Kahmen (eds.): *Proceedings on Optical 3-D Measurement Techniques VI*, Zürich, Switzerland, pp. 65-72.

Lutes, J. (2002): DAIS: A digital airborne imaging system, IAPRS, Vol. XXXIV, Part 1, Denver, Colorado, 6 pages, digitally on CD-Rom.
